

An Exploring of County Health Ranking Data

County Health Ranking Data

We pick a dataset from County Health Ranking in 2021 which consists of 3194 data with 690 features.

Since there are many features, we will briefly show a few important features of them to show what they look like.

County Health Ranking Data Features

There are features like:

- “State” and “County” to locate where the data are from.
- “Premature death numerator” to denote a number of deaths in each county.
- “Low birthweight numerator” to describe infants born weighing 5.5 pounds or less.

Examples of County Health Ranking Data

State	County	Premature death numerator	Low birthweight numerator
AL	Autauga County	787	415
AL	Bibb County	476	185
CA	Kings County	1421	1029
CO	Ouray Country	42	21
