# What is Talend?

Talend is an open source data integration platform. It provides various software and services for data integration, data management, enterprise application integration, data quality, cloud storage and Big Data.

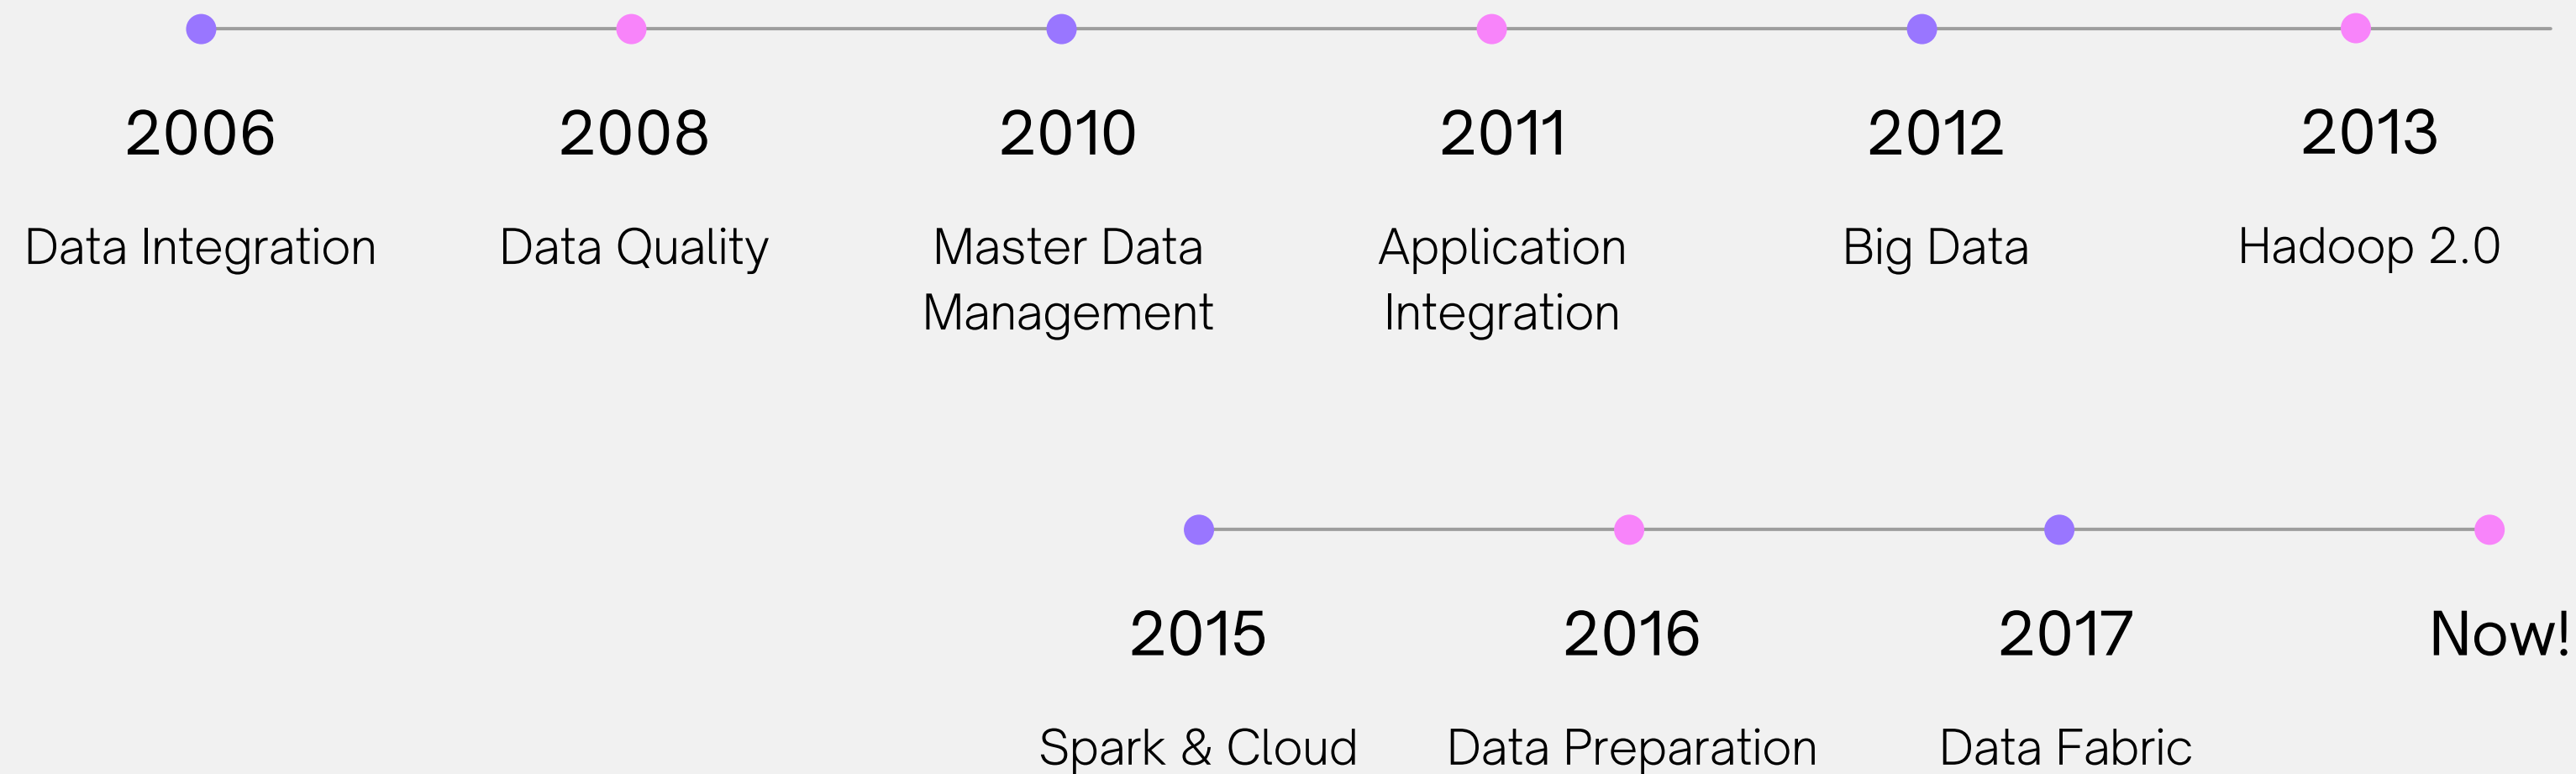

# About Talend

was founded in 2005,

Where the headquarters is in Redwood City,  
California, United State.

# Evolution of Talend

# Talend Products

Talend provides various usage for the user to enhance and handle on data.

## Talend Platforms

## Talend Enterprise

## Talend Open Studio

# Introduce to Talend Open Studio

Talend Open Studio is a free open source ETL tool for Data Integration and Big Data. The tool will create the Java code for the job automatically and you need not write a single line of code.

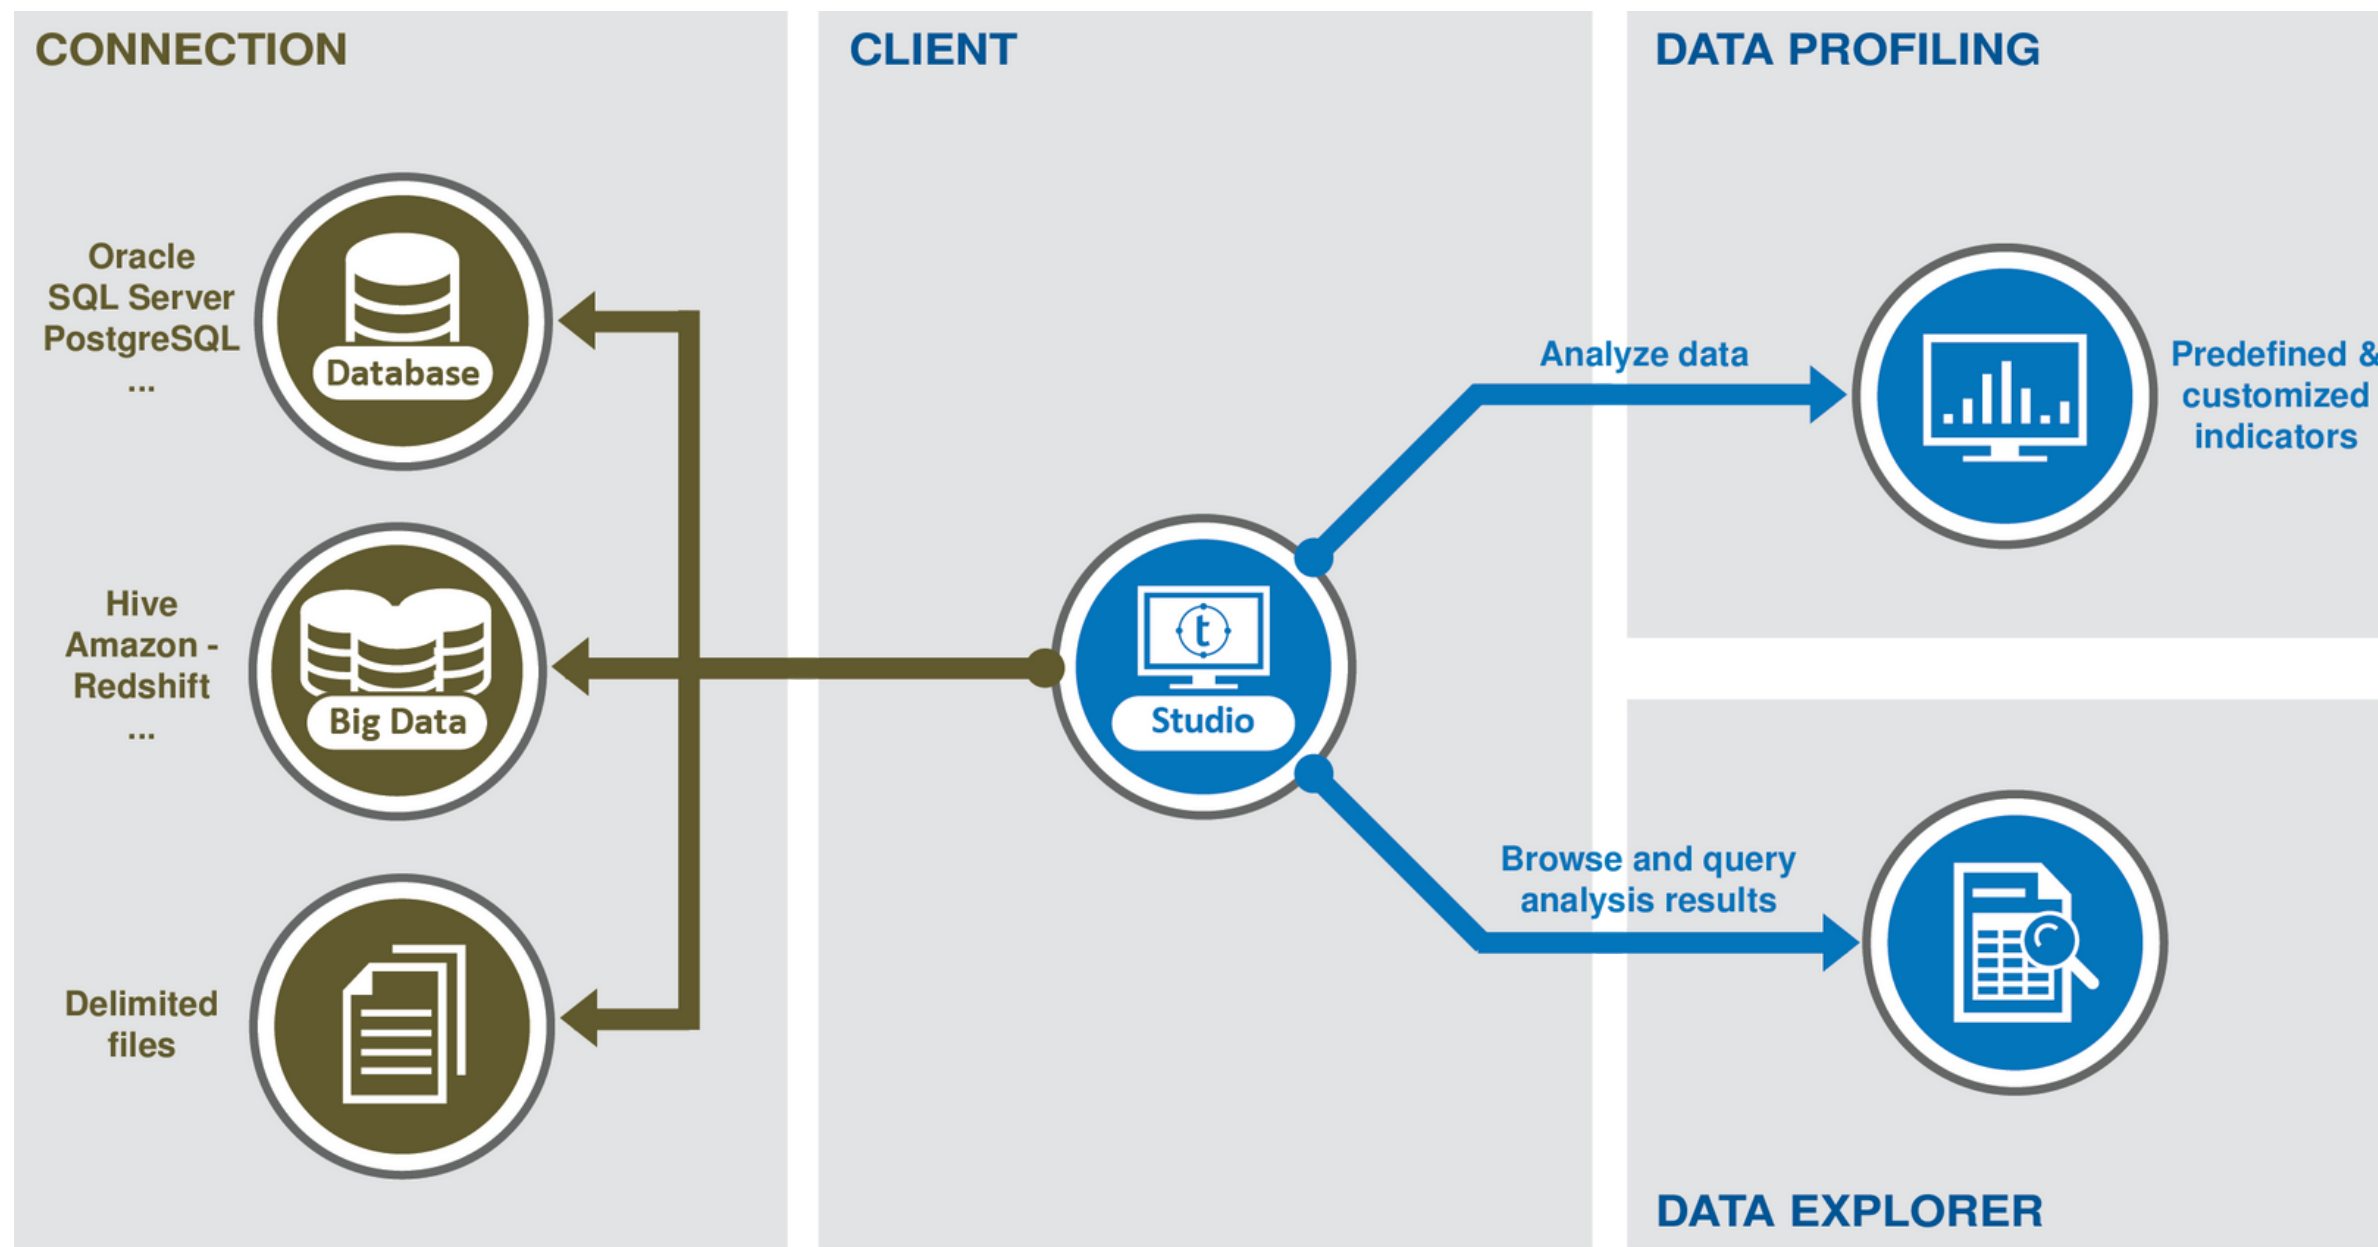

logo of TOS

# TOS Architecture

The following chart illustrates the main architectural functional blocks.

# Benefits of TOS

Here are some key benefits of using TOS:

# Real Life Use Case of TOS

**Industry:** Retail and E-Commerce

## **About Company:**

Groupon is an American e-commerce marketplace, which connects subscribers with local merchants by offering various activities, travel, goods, and services in 15 countries worldwide.

## **Where has it Helped:**

Groupon uses Talend's Data Integration products for importing the raw data from different sources to the data warehouse, then transforming it into the desired format and then exporting it to various target systems.

## **Result:**

1 TB of raw data is being processed in real time and stored in various target systems every day  
1,000 data integration jobs are executed on a daily basis using ETL processes  
In every 5 minutes, Talend updates the data warehouse with the OLTP system data

# TOS Installation

## Recommended Operating system

- Microsoft Windows 10
- Ubuntu 16.04 LTS
- Apple macOS 10.13/High Sierra

## Memory Requirement

- Memory - Minimum 4 GB,  
Recommended 8 GB
- Storage Space - 30 GB

also need an up and running Hadoop cluster (preferably Cloudera.

Java 8 must be available with environment variables already set.

### **Talend Open Studio: Open-source ETL and Free Data Integration**

Execute simple ETL and data integration tasks in batch or real-time. Download Talend Open Studio today to start...
